Doctests

```
def geraints_function(a, b):
    """
    Returns the absolute difference between a and b

        >>> geraints_function(7, 9)
        2
        >>> round(geraints_function(20.4, 3.1), 1)
        17.3
    """
    return max(b-a, a-b)
```

Unittests

```
import unittest
import geraints_function

class TestGeraintsFunction(unittest.TestCase):

    def test_geraints_function(self):
        self.assertEqual(geraints_function(7, 9), 2)
        self.assertEqual(geraints_function(20.4, 3.1), abs(20.4-3.1))
```

Travis

Coverage

```
$ pip install coverage
$ coverage run --source=ciw -m unittest discover ciw.tests
$ coverage report -m
```

Academic Uses

Theoretical Work

Investigating deadlock in queueing networks.
(Geraint Palmer, Prof. Paul Harper, Dr. Vincent Knight)

Practical Work

Modelling an ophthalmology clinic to strategise scheduling.
(Lieke Hölscher, Dr. Jennifer Morgan)
